

Global Climate Tipping Points

A B C D E

Closest to tipping - due to global warming

BIOSPHERE

- Tropical dry forest
- Tropical rainforest
- Boreal forest
- Tundra
- Savannas & grasslands
- Drylands
- Temperate forests
- Peat bogs

- Lakes
- Coral reefs (A)
- Mangroves
- Fisheries
- Seagrass
- Kelp forest
- Delta

CRYOSPHERE

- Greenland Ice Sheet (B)
- West Antarctic Ice Sheet (C)
- Non-marine East Antarctica
- Marine basins East Antarctica
- Permafrost (D)
- Mountain glaciers

OCEAN & ATMOSPHERE CIRCULATIONS

- Atlantic Meridional Overturning Circulation (AMOC)
- Subpolar Gyre (SPG) (E)
- Southern Ocean Overturning
- West African monsoon
